

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. REPORT.

OFFICE OF THE STATE BOARD OF ASSESSORS,
TRENTON, N. J., October 31, 1913.

To the Legislature of New Jersey:

The State Board of Assessors, in compliance with the provisions of the act of the Legislature entitled "An act to revise and amend an act for the taxation of railroad and canal property, approved April tenth, one thousand eight hundred and eighty-four" (which revision was approved March 27, 1888), and the various acts supplementary thereto, herewith submits its thirtieth annual report, which report, because of its absolutely necessary volume, is divided into two parts—Part I showing the valuation and assessment of railroad and canal property, with the statistical tables and other information relating thereto; and Part Two showing the assessments levied against miscellaneous corporations organized under the laws of the State of New Jersey, and also showing the assessment and apportionment of the franchise taxes levied under provisions of Chapter 195, Laws of 1900, and supplements, upon corporations using the public streets or highways.

RAILROADS AND CANALS.

The assessment for the year 1913 of property used for railroad or canal purposes was levied against one hundred and thirty-two railroad corporations and one canal company, the particulars and details of which assessment are fully set forth in Schedule A of the appendix to this report, said schedule also giving itemized statements of "second class" railroad and canal property, together with the tax levied thereon at full local rates.

The new corporations added to the assessment of 1913 were the Stone Harbor Railroad Company, the Stone Harbor Terminal Railroad Company, and the Wildwood & Delaware Bay Short Line Railroad Company (of the Unclassified Railroads.)

STATE BOARD OF ASSESSORS.

The South Easton & Phillipsburg Railroad Company merged with and became an integral part of the Lehigh & Hudson River Railway Company, by certificate filed in the Secretary of State's office April 2, 1912, and the assessment of the former company is included in the assessment of the latter for the year 1913.

Philadelphia and Reading Railway System

ATLANTIC CITY RAILROAD.

MAIN LINE.

Extends from Kaighn avenue, Camden city, to terminal at Atlantic & Arkansas avenues, Atlantic City, Atlantic county.

Length, 55.914 miles.

BRANCH LINES.

GLOUCESTER AND MT. EPHRAIM BRANCH.

Extends from junction with main line near Fillmore street, Camden city, to Grenloch, Gloucester township, Camden county.

Length, 10.916 miles.

NOTE:—Originally the junction point of the Gloucester & Mt. Ephraim Branch with the main line was located near Jefferson street, Camden city. After the line was relocated upon the land of the New York Dry Dock & Ship Bldg. Co., the Gloucester & Mt. Ephraim trains were operated through Bulson street yard from the original junction point at Jefferson street. The trains are now run over the main line from Jefferson street to Fillmore street, thus shortening the actual length of operated line.

WILLIAMSTOWN AND DELAWARE RIVER BRANCH.

Extends from Atco, Camden county, to Mullica Hill, Harrison township, Gloucester county.

Length, 22.434 miles.

NOTE:—The main line originally extended from Atco in a continuous line to Mullica Hill, crossing the main line of the Atlantic City R. R. at Williamstown Junction. For the safety and convenience of operation, the crossing at Williamstown Junction has been removed and the line is now operated as two separate parts, the portion lying between Atco and Williamstown Junction being operated as one part, and the portion from Williamstown Junction to Mullica Hill, the main portion of the branch, being operated separately from the other part.

352 PHILA. AND READING RAILWAY SYSTEM.

GLASSBORO BRANCH.

Extends from connection with main line, Williamstown and Delaware River Branch, to curb line of Academy street, Glassboro, entirely within the taxing district of Glassboro township, Gloucester county.

Length, 0.336 mile.

BALTIC AVENUE BRANCH.

Extends from connection with the main line at Arkansas avenue, Atlantic City, through Baltic avenue, to the center of North Massachusetts avenue, entirely within the taxing district of Atlantic City, Atlantic county.

Length, 1.226 miles.

SEA ISLE CITY BRANCH.

Extends from connection with the main line at Winslow Junction, Winslow township, Camden county, to a point 362 feet south of center line of Garrison avenue, on Central avenue, Sea Isle City.

Length, including "Y" at Tuckahoe, 40.298 miles.

OCEAN CITY BRANCH.

Extends from connection with Sea Isle City Branch at Ocean City Junction, Upper township, Cape May county, to a point 952 feet south of center line of Front street, Ocean City, Cape May county.

Length, 10.085 miles.

CAPE MAY BRANCH.

Extends from connection with Sea Isle City Branch at Tuckahoe, Upper township, Cape May county, to Washington street, Cape May city.

Length, 26.819 miles.

Total length main line and branches, 168.28 miles.
